

DAGGER IN ITS HEART

Bitter Words Written to I. P. Campbell of Wichita

BY MR. JOHNSON, POPULIST

Who Tells How the Democrats Have Treated His Party.

Since the publication of his speech in the Eagle I. P. Campbell has had ample evidence of the fact that hundreds of Populists think as he does; that Democracy must be rebuked, and at once if Populism is to live.

Inquiries for papers containing his speeches are coming in from every direction. During the week here, many Populists called on Mr. Campbell and assured him that he was taking the right course to save Populism from the Democratic party.

During the last week Mr. Campbell, among other letters, received one from W. A. Johnson of Sumner county.

This is the way Mr. Johnson goes after the Democrats:

Portland, Kan.,

I. P. Campbell, Wichita, Kan.

Dear Sir: I sincerely regret to see the shameful treachery of some of our fustian Democrats, and with the aid and assistance of that arch traitor, Wm. Stryker, editor of the Voice. He is full of treachery, and our ex-convict chairman, Iven Rogers, and J. Robert Gilman, secretary, are the ones that betrayed and sold us into the Democrats. But I assure you that they will not be able to deliver the Populists into the Democratic party, only those Democrats that voted with us to beat Republicans. I sincerely believe for the last four years that there exists a secret order, and through Bryan and Stevenson to turn our party over to the trusts, and have us experience the same hard times as we had under Cleveland and Stevenson. They had the poor laboring man under their thumb, and the Pacific and all over our land to our capital to give them an object lesson of the deplorable condition of the poor, and the answer was "Keep off the grass," and some were sent to prison.

The Democrats could have done nothing only for the spill hunter in our own party. At our jubilee the Bryanites got out badges of Bryan and Duval and tried to make a display for Duval. A good many tore off the Duval part. I think I can tell you that Duval from 500 to 1,000 votes in our county, on account of the fact that he got his last nomination. It seems the full intent of the trusts is to destroy the Populist party and the Omaha platform, that told the trust what it meant and that it meant what it said. I am only a farmer, I never held state or federal office and if the farmers will be humiliated by Bryan's score of expansion and imperialism it is good enough for them. If he was as good a statesman as a politician, he ought know we mean just on the nation and loss of life and property.

The trust or bondholder pays no taxes. Bryan put the mantle of honor over his shoulders and went to mop the earth with Spain and done all he could to have war and to have the treaty signed. It meant a quit claim to the Philippine Islands as well as to Cuba. It did not save the subjects and us a right to control them, let us leave them. If the islands do not belong to us, has not Germany and France as much right to help the Philippines establish a stable government as we have. That treaty made them ours, or we have a claim on them, and Democrats howl expansion and imperialism. I was never in favor of the war with Spain. I cannot say as Bryan does, whether it is a good bargain or not, so we get American brain and muscle to develop its resources.

The man that upholds or abets those natives in firing on our flag does not know what treason is. It is ours by treaty and is acknowledged by the laws of nations. No true Populist can hold to the idea of throwing the Philippine Islands over to those natives or some other nation; it is all right. Bryan has smothered all the live issues that were in our Omaha platform that were in favor of the minor and farmer and all classes of laboring men and against the trusts, and taken up the howl for imperialism for a few million natives thousands of miles away, and you will have Duval with his 15 to 1 and initiative referendum to cure all the ills of the poor man in one hand and a Democratic dagger in the heart of the Omaha platform in the other hand. Yours respectfully,

W. A. JOHNSON.

NOTES ON THE CARNIVAL.

There was, what everybody desired, plenty of band music this time.

The cry this year was "You'll have to hurry." Last year it was "They always come back." What will it be next year? The man who runs the Fairmount car on one day never left the car for eighteen hours. His meals were brought to him. The railway company had great trouble in getting motormen.

More telegraph money orders were received in Wichita on Friday than on any previous day in the city's history.

On Friday morning 1st Halstead people drove to Bentley to take the Midland for Wichita. The agent at Bentley was so delighted with his big sale of tickets that he lined the crowd up and took a photograph of it. Forty Halstead high school people drove the same morning to Sedgewick to take the Santa Fe to Wichita.

One of the Frisco trains into Wichita from the east Friday came in five sections.

Everybody in Wichita on Monday and Tuesday was cross and nervous, but on Wednesday they were over it and yesterday, with a cool northern breeze blowing, most everybody in Wichita felt that he could stand a year of carnival.

Late Friday evening there was an buzz when there was not a drop of milk to be had in the city.

It is said that the ice output of Wichita was exhausted during the day Friday.

One day a man in Bryan Bros' candy factory threw a little package to a friend sitting in the German Village and the friend, thinking it contained candy, opened it. It contained bees and there was a panic in the German Village for a few minutes.

At the Boro show occasionally a woman would retreat for the outside like a sufferer from sea sickness.

Colonel Murdoch of the Eagle has the largest estimate of Friday evening's crowd yet made. He gave each person between the depots and the Baltimore hotel four square feet of room, and at that rate, and it is one which no one

will dispute who saw the crowd, all the people viewing the procession numbered 114,000.

It was wonderful the way the visitors held on. There were thousands still in the city yesterday although every outgoing train was loaded.

Mr. McFarland of Cincinnati says that a week ago Cincinnati had a carnival but it didn't compare with Wichita's blow-out. He says that the carnival in Cincinnati was too stiff and people didn't enjoy themselves.

The reason born blowing was stopped was not because of the noise but because men were using them for clubs.

The Kansas City papers are roasting the Kansas City carnival to a frazzle. It was a failure. The Kansas City papers contain no mention of the Wichita entertainment.

Samp Amison was in Kansas City one day this week. He said that he met scores of men who were talking about the blow-out at Wichita.

Roy Kramer, who is here from Missouri, says that so many of the railroad men in his section of the country wanted to come to Wichita that leaves of absence were finally shut off.

After midnight Friday the Rock Island sent out two specials to Oklahoma, taking people home; the Missouri Pacific sent out three and the Frisco four.

If any more people had come to Wichita the city could not have handled them. As it was you heard people saying respectfully that the crowd was too big.

Hundreds of visitors visited Bryan Bros' candy factory during the week. Waiting rooms were arranged for them.

The verdict of the people generally is that the best thing of the carnival was the Main street arch, and after that the electric fountain.

There is a story out that the beautiful young woman who appears in the electric fountain is in danger of losing her eyesight because of having to face the brilliant search light. There is nothing in the story.

Wednesday and Thursday night every hotel in the city had halls lined with ice and had to turn people away.

In many instances Wichita merchants had to call in members of their family to help out in the clerical force. Friends of merchants were in a number of instances helping at the stores who could not tell a price mark from a Chinese poem.

The city authorities do not know why there was an entire absence of accidents. It is inexplicable.

Boys, in order to see the Midway, got in over the ceiling of the council chamber and knocked plastering down in some places.

One moment at the Midway entrance Friday night the crowd on the outside got the better of the doorkeepers and crashed their back. Mr. Boyle, who was one of the ticket takers, yelled to the crowd: "Hold on!" "Hold on to what?" yelled the crowd. "Hold on to your girl," yelled Mr. Boyle, and the laugh that followed gave the ticket gate men a chance to force the crowd back.

While the fire was in progress Friday night no alarm was sounded. It would have created a panic and the foresight of the fire department in not tapping the bell is commendable.

For the first time thousands of Wichita people got to see the Midway last evening.

Some of the dresses worn on the night of the carnival dance were fearfully short.

The search lights should have run continually. Lack of electrical power is said to have been the cause of their frequent delinquency.

Everybody in town thinks he is the wealthiest, but all things considered the girls at the central telephone office are more tired than anybody else.

When the supply of confetti gave out the Eagle manufactured a couple of bushels. Over \$200 worth was cleared.

Strangers much in the electrical parlors, Shakespeare before Queen Elizabeth got the most applause.

If the temper of the audiences at the moving picture show is an index this entire section is for expansion. When the Philippines were shown in retreat, everybody laughed, and when the Americans rushed into view there was wild applause.

On Thursday evening many people went out to adjoining towns to get beds.

One Wichita establishment, the front of which was beaded with electric lights, was so busy that yesterday the lights burned all day.

All the shows this year were confined to the Midway with one or two exceptions, and it was better than last year.

The Boston show Friday evening did a good thing by plugging a lot of dry goods boxes out in front for people to sit on.

The chief trouble with Wichita's business section is that there is no place to sit down and rest.

The first night of the carnival a special policeman arrested a prominent citizen for a conflict with a confetti. The policeman didn't know it was in the game.

FINE BLACKWELL BAND

Which Led the Electric Pageant Friday Evening

One of the finest bands Wichita ever listened to is that Blackwell band. People could hardly believe their ears when they were told that the band which led the electrical pageant was from Oklahoma and had been produced by a community which is only seven years old.

Leader Shiff is a man of pronounced talent and he has made out of amateur players who are able to cope with professionals. The Blackwell band, which has been pleasing Wichita with its music, numbers twenty men. Its instruments are all the ones, and without a single exception every man is able to play his instrument masterfully. The boys were much pleased with the honor of first place in the pageant they received in Wichita and in the Eagle office yesterday they had been treated royally while in the Peerless Princess.

MR. RODGERS OF LOS ANGELES

He Says That California Is Sure for McKinley

Mr. and Mrs. Robert Rodgers of Los Angeles are in the city visiting Mr. and Mrs. T. C. Wilson. Mr. Rodgers is now assistant cashier in the National Bank of California, Los Angeles, and one of the leading citizens of that city. Mr. Rodgers said last evening: "If McKinley is again elected, as we all believe, the next four years will be the most prosperous in the history of California. Los Angeles is in superb condition and will lead the boom in the pan of '92, under Cleveland's administration, sure was the only national bank in the city which didn't close. Now, under McKinley, everything is in a prosperous condition, and if we have four more years like the preceding four, there is no limit to anticipation of our growth."

During the Cleveland panic his bank closed in Los Angeles and the people all there to not want any more Democratic hard times. The state, Mr. Rodgers says, will go overwhelmingly for McKinley.

EDITORS WHO CAME

To Attend the Big Carnival Week in Wichita.

THEIR PAPERS ARE FULL

Of Names of People Who Came Along with Well.

In every paper within a hundred miles of Wichita the local columns are practically monopolized by persons of citizens who came to Wichita during the last week.

El Dorado furnished about 700 visitors. In one day Ellsworth sent 300. Cities of Oklahoma sent thousands. No record of the visitors was kept and the railroads are considerably at sea over the exact number of people they hauled here.

Some idea of the big crowd may be secured from the number of editors who attended the carnival who signed their roll and received press badges.

The editors all had a good time and were among the last to leave the city of the holiday crowd.

Those registering at the Eagle office from out the city were as follows:

FOR INSULAR GOVERNMENTS

Taft Commission Appropriations—Pen- sion to Native Family

Manila, Oct. 4.—The new Philippine commission today appropriated \$25,000 (Mexicans) to the widow of the late and efficient Filipino president of the town of Santa Cruz, who was reverently murdered by the insurgents. The purpose is to show the United States government's intention to protect its friends and faithful servants, the heroes of Panay Island and its civil government. Monday, October 2, the rebels killed Lieutenant Max Wagner of the Twenty-seventh regiment of volunteer infantry near Paria, Island of Panay. A detachment of the Forty-fourth regiment at Bojol Island, one of the Visayan group, has encountered a force of the enemy, killing thirty of them. One American was killed.

MINERS PAY NO ATTENTION

To the 10 Per Cent Increase Offered by Operators.

Hatfield, Pa., Oct. 4.—Not the slightest notice has been taken by the striking miners of the 10 per cent increase offered by the operators by several of the larger coal companies. As far as is definitely known, not one striking miner has accepted the advance, but on the other hand more have taken their places, solely in the Schuylkill region, where Ohio additional volunteers of the Reading company were sent down. The United Mine Workers' officials are still hard at work trying to close the few mines that continue in operation.
